<b>Ferrari 599 / FF GTO</b>											
Ferrari	599 GTO / FF	2011+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software + Raised Rev limit 8000	Y	Y	670 HP / 460 TQ	635 HP / 480 TQ	2 ECU's*	\$4,750
<b>Ferrari 458 - 570</b>											
Ferrari	458 - 570	2012+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	570 HP / 400 TQ	535 HP / 414 TQ	2 ECU's*	\$3,250
					Software + Sport Exhaust	Y	Y	570 HP / 400 TQ	592 HP / 420 TQ	2 ECU's*	\$6700*
					Software + Sport Exhaust + Sport High Flow Catalysts	Y	Y	570 HP / 400 TQ	615 HP / 438 TQ	2 ECU's*	\$9800*
					Software + Sport Headers + HFC + Exhaust + Dual Challenge Tips	Y	Y	570 HP / 400 TQ	630 HP / 460 TQ	2 ECU's*	\$14,385*
<b>Ferrari 458 - 560</b>											
Ferrari	458 - 560	2010+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	560 HP / 400 TQ	535 HP / 414 TQ	2 ECU's*	\$3,250
					Software + Sport Exhaust	Y	Y	560 HP / 400 TQ	592 HP / 420 TQ	2 ECU's*	\$6700*
					Software + Sport Exhaust + Sport High Flow Catalysts	Y	Y	560 HP / 400 TQ	615 HP / 438 TQ	2 ECU's*	\$9800*
					Software + Sport Headers + HFC + Exhaust + Dual Challenge Tips	Y	Y	560 HP / 400 TQ	630 HP / 460 TQ	2 ECU's*	\$14,385*
<b>Ferrari California</b>											
Ferrari	California	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	460 HP / 358 TQ	488 HP / 374 TQ	2 ECU's*	\$2,950
					Software + Sport High Flow Catalysts / X Pipe	Y	Y	460 HP / 358 TQ	506 HP / 385 TQ	2 ECU's*	7435*
<b>Ferrari F430 Scuderia</b>											
Ferrari	Scuderia	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	510 HP / 347 TQ	532 HP / 368 TQ	2 ECU's	\$2,950
					Software + Sport Headers + BMC Filters	Y	Y	510 HP / 347 TQ	549 HP / 393 TQ	2 ECU's	7135*
					Software + Sport Headers + BMC Filters + HFC	Y	Y	510 HP / 347 TQ	569 HP / 402 TQ	2 ECU's	9650*
					Software + Sport Headers + BMC Filters + HFC + Exhaust X Pipe	Y	Y	510 HP / 347 TQ	590 HP / 409 TQ	2 ECU's	12245*
<b>Ferrari F430</b>											
Ferrari	F430	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	490 HP / 343 TQ	514 HP / 362 TQ	2 ECU's	\$2,950
					Software + Sport Headers + BMC Filters + Carbon Airboxes	Y	Y	490 HP / 343 TQ	529 HP / 384 TQ	2 ECU's	8200*
					Software + Sport Headers + BMC Filters + CAB + HFC	Y	Y	490 HP / 343 TQ	548 HP / 394 TQ	2 ECU's	10490*
					Software + Sport Headers + BMC Filters + CAB + HFC + Exhaust X Pipe	Y	Y	490 HP / 343 TQ	574 HP / 402 TQ	2 ECU's	12975*
<b>Ferrari 599 GTB</b>											
Ferrari	599	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	620 HP / 448 TQ	643 HP / 466 TQ	2 ECU's□	\$2,950
Ferrari	599	2008+	F1 - Manual	Bosch	Software + Secondary Cat Bypass Pipes	Y	Y	620 HP / 448 TQ	659 HP / 479 TQ	2 ECU's□	4945*
<b>Ferrari 612 Scaglietti</b>											
Ferrari	612	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	540 HP / 434 TQ	561 HP / 449 TQ	2 ECU's□	\$2,950
<b>Ferrari 575 Maranello</b>											
Ferrari	612	2008+	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	508 HP / 434 TQ	536 HP / 452 TQ	2 ECU's□	\$2,950
<b>Ferrari F360</b>											
Ferrari	F360	99 to 04	F1 - Manual	Bosch	EVOMS.it Performance Engine Software	Y	Y	400 HP / 275 TQ	422 HP / 235 TQ	2 ECU's□	\$2,550
					Software + Carbon Airboxes / BMC Filters	Y	Y	400 HP / 275 TQ	429 HP / 302 TQ	2 ECU's□	4295*
					Software + Sport Exhaust + Carbon Airboxes / BMC Filters	Y	Y	400 HP / 275 TQ	438 HP / 306 TQ	2 ECU's□	6990*
					Software + Sport Exhaust + CAB / BMC Filters + Headers	Y	Y	400 HP / 275 TQ	452 HP / 314 TQ	2 ECU's□	9385*
					Software + Sport Exhaust + CAB / BMC Filters + Headers + HFC	Y	Y	400 HP / 275 TQ	461 HP / 318 TQ	2 ECU's□	12800*
<b>Notes</b>											
* Price includes hardware											
1 Requires Special Universal Flashing Cable. This cable is available for €250											
3 Flashing requires a proprietary EVOMS.it ME9 flashing tool. This tool is available for on site dealer flashing. Inquire about pricing. ECU's can be sent to EVOMS for flashing. Same day turnaround for flashing											
<b>Additional Information</b>											
<b>BT (Integrated Switching Technology)</b> EVOMS.it software calibration integrates multiple "progressive" ignition maps. These ignition maps are automatically advanced based on the fuel octane level, ambient temperature, intake temperature and other engine criteria. Timing, horsepower and torque is automatically increased to optimum levels based on limits set within the ECU. The EVOMS.it advertised power and torque figures are approximate and will be higher or slightly lower depending on the conditions and fuel octane. We have carefully tested and tuned the ECU calibrations on the dyno, open road and on a closed course for optimum safe levels utilizing all of the OEM engine protection parameters. Typical power gains are as stated for 92 octane fuel and are based on SAE corrected power as measured on our Mustang AWD-5006E Chassis Dyno. Dyno testing is conducted with adequate ventilation, proper airflow simulation, detailed engine analysis / data logging of vital engine parameters and methodical testing procedures. Our stringent testing allows for consistent, accurate and safe power gains.											
<b>SP (Sport Pedal)</b> = EVOMS.it engine software improves the pedal vs. throttle valve response time maps in the ECU. This dramatically improves throttle response, eliminates off/ride throttle delay and adds an overall more crisp throttle response. This feature can be custom tuned to individual driving styles and customer requests.											

> Higher rev limit programs available: Rev limits can be raised or lowered based on the application. Let us know if you have a special rev limit request.
> Race Specific tuning available: If you have a race car that needs a more aggressive tune, let us know and we will accommodate your requests.
> If you have questions about hardware compatibility, we can help you decipher and select the best software for your specific application.
> Custom tuning available: If you have a special project that needs software, we will do our best to accommodate your request.
> If a specific model or software application is not listed, please email or call us. We are constantly releasing new applications that may not be listed.
